

TommaTech TT90 4G Connection Device

- Ability to control inverter performance in real time via RS232 / RS-485 communication port
- Ability to remotely control and monitor the inverter from mobile devices via a web browser or application
- Easy integration into the mobile application via GSM Card
- Instant data transfer
- Historical data stored in the central PC database
- Simple software update
- Password secured protection and remote Access

TommaTech TT90 4G Connection Device

Features

Power Supply	9~24VDC
Supported Network Protocols	TCP, UDP, FTP, PPP, DNS, HTTP
Serial Port Level Type	RS232 / RS485
Serial Port Parameters	Baud Rate: 1200~115200bps Data Bits: 8 Stop Bits: 1
Power Consumption	Communication Status: <90mA@24V Idle: <35mA@24V
Operational Temperature	-40~85°C
Protection Level	IP54
Electromagnetic Compatibility	EMC: Electrostatic discharge noise immunity test level 3 grade RFEMS: Noise immunity test level 3 grade
