

CLOUD

TommaTech Triome Series HeatPump

Application Quick Setup Guide

### 1. Download the app

Download the **TommaTech Cloud** app from the **Google Play Store** or **App Store**. Alternatively, you can download it by clicking the download buttons below.

Press Buttons

### 2. Account Registration

Select Country

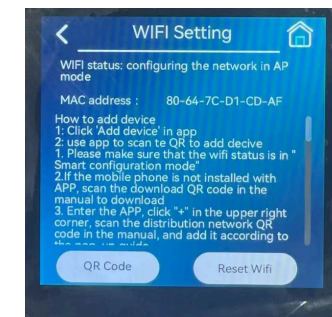

Enter your email address

Enter the Verification Code

### 3. WiFi Connection (Step 1)

By default, it can connect within 10 seconds after the power is first turned on.

#### 1. Method

Access the Wi-Fi interface on the heat pump control panel, click the QR code button, and add the device by scanning the QR code from the app.

#### Method 2

When you turn on your phone's Bluetooth feature, you can see that the device is in pairing mode. If you cannot see it, click the WiFi reset button.

### 4. WiFi Connection (Step 2)

"Ekle" tıklayın

Click on the + in the right-hand corner, then click on Add device.

Click Add or select the Smart Heat Pump from the list

### 5. WiFi Connection (Step 3)

Enter your Wi-Fi password

Select Your Wi-Fi Network

If your device has been successfully added, you can access it from the Household section.

### 6. Application Interface

You can dynamically view the heat pump's power data from the home page.

When you click on the heat pump icon, you can see the heat pump's instantaneous power data graph.
